QTS (Quality Technology Services)

Richmond, VA United States

| **Detail** | Services | Review | Other Locations |

Location	6000 Technology Blvd., Richmond, VA 23150, United States
About Company	QTS is the third largest data center provider in the US and provides core data center services - Custom Data Center Services, Colocation Services, and Cloud Services - to meet the varied infrastructure requirements of our customers' web services environments. With carrier neutral connectivity to hundreds of access providers and a full array of monitoring and Managed Services, QTS offers the complete solution to your data center IT infrastructure hosting needs.

Secure Facilities - robust, redundant and protected facilities are the foundation of the QTS portfolio and offer secure and reliable infrastructure.

Flexible Solutions - unique collection of data center infrastructure and value added services coupled with financial flexibility allow QTS to structure complete data center solutions that meet both technical and budget requirements of the largest and smallest of customers.

Real-Time Visibility - QTS portal provides comprehensive views into the performance of service components - availability, status, usage, utilization, etc.

Expert Support - QTS ITIL certified operations personnel and monitoring systems support all services and ensure maximum availability and uptime.

QTS owns, operates and manages over 3 million square feet of secure, state-of-the-art data center infrastructure and provides dependable mission-critical IT operations for over 700 customers. Our flexible service portfolio allows us to tailor solutions to meet our customers' current needs, while helping them prepare and plan for growth. From colocation services to managed services to cloud computing, QTS offers solutions to meet nearly any data center services need. |
